

Wholesale Price 99% Peptide Mt2 Melanotan II CAS 121062-08-6 Peptides Powder Mt-II Mt2 Melanotan-2 Polypeptide for Skin

Our Product Introduction

Basic Information

- Place of Origin: Hebei, China
- Brand Name: Xinzhou
- Certification: COA, GMP, CQC, SGS
- Model Number: 121062-08-6
- Minimum Order Quantity: 1kg
- Price: Discuss in detail
- Packaging Details: bag
- Delivery Time: within 3 days
- Payment Terms: T/T, Western Union, MoneyGram, telegraphic transfer and bitcoin
- Supply Ability: 500kg/week

Product Specification

- Cas No.: 121062-08-6
- Product Name: Melanotan II
- MF: C50H69N15O9
- Purity: 99%
- Grade Standard: Pharmaceutical Grade
- Sample: Available
- Highlight: **mt2 melanotan ii, mt2 cas 121062-08-6, pharmaceutical grade melanotan ii**

Product Description

Cheap Price 99.9% Purity Melanotan II Melanotan 2 Mt2 CAS 121062-08-6

Appearance	White to off white powder	Consistent
Purity(HPLC)	≥98%	99.38%
Water	<6.0%	4.63%
Acetic Acid	3.0-8.0%	6.45%
Peptide	≥80%	84.61%
MS	Consistent	Consistent

Melanotan 2 (CAS NO. 121062-08-6) was first synthesized at the University of Arizona. Researchers decided to find a more potent and stable alternative, one that would be more practical to defenses against skin cancer.

It was under development as drug candidate for female sex dysfunction and erectile dysfunction, Melanotan 2I acts as a non-selective agonist of the melanocortin receptors.

The melanogenesis produced by melanotan 2 is caused by activation of the MC1 receptor, whereas its sex effects are thought to be related to its ability to activate the MC4 receptor (though the MC3 is thought to possibly also be involved).

Melanotan II is a peptide hormone belonging to the alpha-melanocyte-stimulating hormone (alpha-MSH) class of mimetics. Melanotan II is a synthetic analog pituitary derived Melanocortin. The peptide is primarily known for its ability to help with tanning but is also used to aid in erectile function. Melanotan II, also referred to as MT-2, has no use of significance beyond tanning and erectile function.

Melanotan II (also known as MT-II or MT-2) is an injectable peptide hormone used to promote tanning. MT-II works by stimulating alpha-melanocyte receptors, which promotes formation of melanin in response to sun exposure. When a substantial amount of MT-II has been taken within recent "memory" of the skin cells, an individual tans as if he were a genetically darker type.

Melanotan II analog of alpha-melanocyte stimulating hormone (a-MSH). Melanotan peptides are safe and efficacious with growing long term data. Melanotan 2 is a freeze dried peptide sealed in a sterile multi-use vial. Tanning injections of synthetic potent a-MSH allow for development of photo-protective suntans in all skin types.

Company Profile

Xingtai Xinzhou Technology Co., LTD.

Xingtai Xinzhou Technology Co., Ltd. was established in 2022 with strong research and development capabilities and superb synthesis technology, as well as advanced quality control measures. Effectively promote the joint venture and cooperation with the major enterprises, manufacturers, with the idea of industrial development to serve the society and the majority of users. We always adhere to the market demand as the orientation, constantly synthesizing new high-tech chemical products and medical intermediates, mainly exported to the United States, India, South Africa, Nigeria and other countries and regions, has a wealth of export experience, to ensure transportation safety, can let each customer as soon as possible to safely receive the goods.

Certificate

An ISO 9001 & GMP qualified company, we are mainly specialized in producing high quality but low price Pharmaceutical intermediates, APIs and other fine chemicals & cosmetics products which related to human and animals medicines as well as additives in gas & oil field, almost half of the goods are for exporting. What's more, we provide the OEM (customize) manufactures, if you can't find materials from the world, then tell us, we will research and produce in our high-tech equipped laboratory. We are dedicated to satisfying our customers with our products and services

1. We can provide you with ten thousands of products of different levels.

2. We offer convenient one-station purchasing service.

(1) Any inquiries will be replied within 12 hours.

(2) Dedication to quality, supply & service.

(3) Strictly on selecting raw materials.

(4) Reasonable & competitive price, fast lead time.

FAQ:

Q: How to confirm the product quality before placing an order

1) You can get free samples of some products, just pay the basic fee for us.

2) You can also send us the specifications or your requirements, and we will customize the product for you.

Q: How long is your delivery time

A: Generally 1-3workdays after order confirmed

Q: What is the regular MOQ for your products

A: Our MOQ starts from 1g and generally starts from 10g. For other low value product, our MOQ starts from 100g and 1kg.

Q: How do you treat quality complaint

A: All our products are strictly tested by our QC, and confirmed by QA; unqualified material will not be released to customer. In case any quality problem is confirmed to be caused by us, we will replace the goods or refund your payment immediately.

Q: What's your terms of payment

A: T/T, Western Union, MoneyGram, telegraphic transfer and bitcoin
